ESTERBROOK MAY BE RELEASED TO-DAY

PEPECIAL TELEGRAN TO THE DISPATCH. INDIANAPOLIS, May 7 .- Although the game this afternoon, between the Pittsburg and Indianapolis clubs was the last to be played on the home grounds until June 11, the attendance was not near as large as was expecte i. The umpire, Lynch, was remembered for vesterday's decisions, and his general unpopularity was proven by the erowd who received him with yells, hisses and all sorts of sounds and unparliamentary

Indianapolis players seemed listless and uninterested at the opening of the game, and the fielding was wretched. Boyle was affected by the general want of energy and at first pitched wildly and apparently recklessly. He was not well, however, and after the came cot fully under headway his work equaled his best efforts. In marked contrast with the listlessness of the Indianapolis club did the Pittsburgers take hold, and in the first inning scored six runs. The entire club played splendidly. *
In the first inning Indianapolis made a flat

failure. For Pittsburg Evangelist Sunday got

DROPPED A NICE FLY o Sullivan's hands at right. Beckley put a fly to Seery, who did not half try to get it, and Beckley was safe. Sunday took surreptitious possession of third and scored on Dunlap's out at first. Beckley scored on Carroll's clean one to right. *Glasscock dropped the throw to sec-ond and Carroll went to third on Maul's stab hit and scored on the throw to second to catch Maul, which was poorly returned by Glasscock, and three runs were entered to the visitors credit. The same luck obtained in the second inning. Indianapolis failed, as in the first, and "Mouthy" Miller started the fun for Pittsburg by a splendid home run over the left field fence. "Pop" Smith was presented with first to go out on Sunday's force to Denny, who stole second too easy and scored on Hanlon's long bagger to center, which Hines should have got with any kind of judgment. Beckley fouled to Denny, Dunlap trotting to first on four bad balls, made a feint to steal second and Sunday was allowed to score by Bassett trying to throw the ball

OVER THE GRAND STAND. Indianapolis waked up somewhat in the third inning, but failed to score, and the visitors failed likewise, although they kept up their pluck and energetic playing throughout the inning. Indianapolis made its first tally in the fourth inning. In this inning Hises knocked up a little fly which Dunlap caught. Then Sullivan, the new player, made himself the hero of the day by knocking the ball over the left field fence for a home run.

In the fifth the home team was thoroughly aroused, and the result was a clean four runs to the credit side. Boyle made the longest hit inside the grounds ever seen. The ball went straight into the corner of center field fence. Four had balls gave Glasscock first and he tole second. A two-base hit by Hines let in Glasscock, and advanced Denny to third. Ivan made his second home run, driving it Denny and Hines ahead of him, The crowd came wildly enthusiastic, and many pieces of silver were thrown to Sullivan from the grandstand when he crossed the home plate. Luck stayed with Indianapolis throughout the sixth inning, and two more runs were added to their

The game at this point aroused much interest. Indianapolis had now one ahead. Pitts-burg went into the search with noticeable energy and captured one. Both clubs failed to score in the eighth, and the ninth inning

A TIED SCORE. In this Indianapolis won the game by making three runs, which was perhaps attributable to

Maul's pitching. In a general way throughout the game his work was good, but a tendency to wildness was shehtly marked even during the earlier porslightly marked even during the earlier por-tion, but in the last inning this wildness de-veloped perceptibly and doubtless had much to do with the result of the last inning. Sul-livan, the new player, is undoubt-edly a strong acquisition to the in-dianapolis club. It is not too much to say that he won the game for them to-day. He was the first to compresend Maul's curves, and proved himself superb both in the field and at the bar.

Lynch's umpiring was no better than it was yesterday, but to-day his decisions were not costly to either side. Indianapolis having won one-half the games played here for the champ-piouship, goes East in better trim and spirits than ever before, in marked contrast with fermer examps. Probably nobody has done more to popularize gun shooting in this locality than E. E. Shaner and his worthy associate, F. F. Davison. There are cranks, of course, in baseball and all other manly pursuits of sports, and it is not wide of the mark to say that Messrs. There were nine particular contests and in one the shooting was remarkably good. The instance referred to was the 21 "bird" match. ELLINGSWORTH'S IDEA.

NEW YORK, May 7 .- Joe Ellingsworth will leave for Los Angeles to-morrow to fulfil his engagement with the Southern Athletic Club and worthy ones at that, in the gun shooting line. Their efforts are meeting with a remarkable success and the hundreds of people who visited Brunot's Island yesterday can testify to this fact.

The two gentlemen named commenced their two day's shooting tournament yesterday. The tournament, let it be understood, was entirely for the benefit of the public and the contestants. Well, the first day was in the language of English neighbors, "A bloomin' success." There were nearly 100 contestants on Brunot's Island. The shooting and the spectators numbered more than three times that. When the jovial crowd was seen amid the sunshine the jod veterans said: "More power to the young 'uns. They'll make sport for us."

However, Brunot's Island probably never looked better than it did yesterday; not even when the Indians in their particular summer time held their revels there, as we are informed they did. The crowd of spectators was an excellent one both in quantity and quality and conditions and the sunshine the lindians in their particular summer time held their revels there, as we are informed they did. The crowd of spectators was an excellent one both in quantity and quality and conditions and greed to fight Mike Lucie before the Cala Athletic Club. The Southern Club assured Ellingsworth that they would live up to their part of the agreement and he was asked to come on and that another opponent would be found for him. Captain Moore's Stable and Trotters De-

stroyed by Fire. CINCINNATI, O., May 7.—The stables of Cap-tain Thomas E. Moore, at his stock farm, "The Cedars," near Shawhan, this county, to-day.

(There were nine particular contests and in burned last night and in them 13 head of the finest trotting stock in the State. The cause of the fire is unknown, but it is thought that a match was dropped in one of the stables and a horse stepped on it. The following is a list of the horses burned and their prices: Kentucky

the horses burned and their prices: Kentucky Hambletonian, 6 years old, \$10,000; Von Wilkes, 2 years old, \$15,000; Bismarck Mambrino, 5 years old, \$3,000; Bourbon Bismarck, 4 years old, \$4,000; Star Bismarck, 3 years old, \$2,500; Count Bismarck, 2 years old, \$2,000; Bourbon Mark, 1 year old, \$2,000; Perfection, 3 years old, \$1,500.

All the above were owned exclusively by Captain Moore, whose total loss on the nine horses is \$42,500. Other horses burned were Dr. Crawford's colt Bismarck Pilot, \$4,000; Moore & Collins' Lilke, 5 years old, \$1,000; "Cedars'" colt, 3 years old, \$500; stable, etc., \$1,500; total loss, \$56,500. There was no insurance on stock or buildings. The stable of the great stallion Victor von Bismarck was isolated, and he escaped injury, as did also Twilight. Only one yearling was burned, and Captain Moore has his yeardings and his brood mares left. Captain Moore says Von Wilkes was the best 2-year-old be ever saw, and his dam was the best breed mare of which he has knowledge. He feels his loss very severely,

Many of the walkers appear to have gotten their second wind and their faces have lost the strained look of yesterday. Cartwright still maintains the lead, with Hegeiman close behind. The pace, however, seems to be too fast for the latter. W. Smith promises to make a good record, while Connor is sure of a place.

The 12 o'clock score was: Hegeiman, 162-miles; Cartwright, 166; Connor, 163; Herty, 161; Day, 149; Smith, 154; Goldeu, 148; Burns, 146; Glick, 149; Fitzgerald's unknown, 132; Hughes, 148; Adams, 136.

Fourth race, one mile—Patrocles won in 142, Burch second, The Bourbon third.

Guttenburg to-day. The incidents not on the card added to the excitement. Roberts & Co., the other beckmakers in the second race, were winner. There was a chase after the welchers, whiter. There was a chase after the weichers, but they had the advantage of a figling start and escaped. A cigarette donkey dropped a lighted match through a crack in the floor of the betting ring while the borses were going to the post for the fourth race. The match ignited some paper, little puffs of smoke grew apace, and there was a wild scramble by women and men to get out of the stand. Fortunately no one was injured. A few nails of water expenses no one was injured. A few pails of water ex-tinguished the fire.

GREETED BY GROANS. Governor Beaver Vetoes a Number of Charitable Measures and

GETS HIMSELF DISLIKED FOR IT. He Objects to Certain Institutions Receiving

MANY OTHERS ARE JUST AS NEEDY. His Messages Received With Groans in the House, but They All Go.

Governor Beaver yesterday vetoed several bills, mostly of a charitable nature. In each instance he gave his reasons at length. Each veto was voted on, and in every one a majority was recorded against the Governor, but it was not of the requisite two-thirds size to pass a bill over a veto. Some of the veto messages were greeted with groans when read in the House.

PROM A STAFF CORRESPONDENT.] HARRISBURG, May 7.-Governor Beaver to-day vetoed the bill providing for the erection of a memorial building to the Pennsylvania Reserve Corps. The Governor approves the general features of the bill, but vetoes it for the following reasons:

Under the provisions of the bill to which this is a supplement the Executive was charged with the duty of naming a commission to oversee the erection of Pennsylvania memorials and the expenditure of moneys appropriated thereby. By the provisions of this bill that commission is passed by entirely, and the power to appoint a committee to control the erection of the building supervise the expenditure of the funds appropriated by the bill is vested in certain voluntary associations, which may or may not have an existence. The provisions of the bill not only take the appoint. provisions of the bill not only take the appointprovisions of the bill not only take the appointment of commissioners out of the hands of the Executive, but interfere with the prerogative of the Senate, so far as its consent to their appointment is concerned. This, in my judgment, is a very grave question—not of great importance in the present case, but so vital in its character as to call for sorious hesitation in establishing such a precedent.

OTHER OBJECTIONS TO THE SAME. The Governor also objects that the ortion of the bill which makes it operative when eight of the Pennsylvania reserve organizations combine would, according to his information, result in several of the organizations being represented by memorials, leaving only a portion of the reserves to be represented in this building. The Gover-nor thinks this would destroy the proper and commendable sentiment which seeks to per-petuate the part taken by the Pennsylvania reserves as a complete organization in the battle of Gettysburg. The Governor also objects that the bill creates distinctions among Pennsylvania organizations by appropriating a much larger amount to the regiments which shall combine to erect the bill combine to erect the building than is given to other Pennsylva-nia organizations, or to others belonging to the Pennsylvania reserve division itself. In vetoing the appropriation for the Alle-gheny County Association for the Preven-tion of Crucky to Children and Aged Peo-ple, Governor Beaver says:

All these relate to a class of persons for whom provision is made by the laws of the Commonwealth. This is a beautiful charity Jommonwealth. This is a beautiful charity which seeks to take these aged persons from surroundings in which they may be found, either in public institutions or private places, and give them more of the comforts and enjoyments of home. Such charity is to be greatly commended, but is it within the province of the Commonwealth to make such distinctions among their destitute people. Can she say, or ought she say, one person shall be maintained in an ordinary county home, while another of equal age and equal disability shall be maintained in an institution of higher grade, where more comfortable surroundings may be found and better attention given. This is unquestionably the province of private charity. Gazette and Kelleher will meet Lannon to make arrangements."

Dr. Walk said the Governor was encroaching on the power of the Legislature to direct the expenditure of money, and Mr. Fow said it looked as though the Governor was trying to save money in one place to spend it in some other.
Captain Billingsiey also spoke in defiance of the Executive veto, and a majority was given against the Governor on each of the three bills. However, two-thirds of the

WHAT CAN BE DONE?

There has been more excitement and greater discussion over the subject of quick consumption, pnetmont and sudden deaths within the last six months than ever before in the history of the world. Doctors, chemists, scientists and all thinking people have been interested in it, and the fact that more than two-thirds of all deaths arise from throat and lung troubles has intensified it. What to do and what to use have been the universal questions with all who

deaths arise from throat and lung troubles has intensified it. What to do and what to use have been the universal questions with all who have coughing. The best thing upon the subject that we have seen is from the well-known scientist, William T. Cutter, State chemist of Connecticut. *He says:

"Bome years ago, while residing in Kentucky, I received a letter from a large number of the leading physicians of New York, asking from my long residence in Kentucky, as well as my skill as a chemist, if I would furnish them with a pure article of whiskey for the sick. I did as they requested, and for several years furnished them with a whiskey as nearly suitable for their purpose as I could find in Kentucky; but neither at that time nor during the 20 years that have elaysed since then have I found a pure article of whiskey seeming to answer in every respect what they required until I chemically analyzed Duffy's Pure Malt Whiskey. Having a practical as well as a chemical knowledge. I have analyzed a great many samples of whiskey, wines, ales, etc., and was surprised at the analysis of Duffy's Pure Malt Whiskey to find it was absolutely pure, as I never found this to be the case in any other whiskey I had examined. Its advantages to those suffering from Pulmonic troubles, nervous prostration or mental exhaustion must necessarily be very great. I consider that its absolute purity, as well as scientific mode of manufacture must commend it to general use and public favor."
